ABOUT ME

Information Technology student and graphic designer with experience in web and mobile development, programming, and creative digital design. Skilled in combining technical expertise with visual creativity to deliver innovative projects, collaborating across schools and organizations to produce high-quality solutions.

EDUCATION

Holy Child College of Davao | 2020 -2022

ICT – Programming & Animation

two-year technical-vocational program focused on programming fundamentals, animation principles, and digital media production. Gained hands-on experience in basic web development, graphic design tools, and 2D/3D animation software, building a strong foundation for further studies in information technology.

Holy Cross of Davao College | 2023-2026

Bachelor of Science in Information Technology

Currently pursuing a four-year degree in Information Technology with coursework covering software development, database management, networking, systems analysis and design. Engaged in practical projects and on-the-job training that reinforce classroom learning and prepare students for real-world IT roles.

ON-THE-JOB EXPERIENCE

Department of Social Welfare and Development (DSWD) | 2026

Fullstack Developer (Intern)

Served as a Fullstack Developer Intern at the Department of Social Welfare and Development (DSWD), where I designed and developed a Purchase Request Tracking System to digitalize the agency's internal procurement process. The project involved end-to-end frontend UI and backend API development, collaborating with the procurement team to streamline request submission, approval workflows, and real-time tracking across the department.

PROJECT

Helmsman Helmet | 2024

Fullstack Developer

Designed and developed a Point of Sale (POS) and Inventory Monitoring System for Helmsman Helmet. The system was built to streamline sales transactions, product management, stock monitoring, and inventory tracking. Responsibilities included end-to-end frontend and backend development, database design, user authentication, sales reporting, and inventory management features to improve operational efficiency and stock control.
